B.D.B GLOBAL CORPORATION COMPANY LDA
ON AND OFFSHORE SERVICES / INDUSTRIAL MAINTENANCE

BDB GLOBAL CORPORATION LDA
Boilermaking
Piping
Metallurgy and steel construction
Cleaning and certification of capabilities
Cathodic protection and NDT inspection

B.D.B Global Corporation LDA, an Angolan-registered company listed in the Local Content Registry and an active member of the ANPG, is committed to providing you with its expertise, ingenuity, and—above all—its extensive experience across a wide range of specialized industrial fields.

Our competencies cover key technical areas where we maintain the highest standards of quality, safety, and compliance with international regulations:

- **Boilermaking**
  Fabrication, repair, and assembly of complex metallic equipment, including tanks, vessels, frames, and high-precision structural components.
- **Piping**
  Design, prefabrication, and installation of onshore and offshore piping systems, including full quality control, hydrostatic testing, and compliance with API/ASME standards.
- **Metallurgy and Steel Construction**
  Construction of heavy and light steel structures, specialized welding operations, reinforcement of existing installations, and on-site assembly.
- **Cleaning and Certification of Capabilities**
  Industrial cleaning services, surface preparation, technical stripping, compliance verification, and certification of installations according to operational and regulatory requirements.
- **Cathodic Protection and NDT Inspection**
  Implementation of onshore/offshore cathodic protection systems, corrosion diagnostics, non-destructive testing (UT, MT, PT, VT), monitoring, and comprehensive reporting.

Driven by a commitment to operational excellence, B.D.B Global Corporation LDA positions itself as a reliable partner, capable of supporting your projects—from engineering to field execution—with efficiency, safety, and professionalism.

An ambitious structure to serve your projects.

Our teams of professionals will support you throughout your projects, offering customized solutions tailored to your needs.
BDB GLOBAL CORPORATION LDA manufactures standard and special boiler-made structures in carbon steel, stainless steel and alloys. In our own workshop, our specialists manufacture welded structures for oil rigs and industrial companies.
BDB GLOBAL CORPORATION LDA also provides transport and installation services for fabricated structures..

OUR SKILLS

ABILITY TO WORK

Precision welding to enhance your projects

- 100 welders - 220 qualifications

LARGE-SCALE PRODUCTION CAPACITY

HIGH LIFTING CAPACITY

- 2 5-ton lifting cranes
- 2 4-tonne pallet trucks

CATHODIC PROTECTION

- A major cathodic protection system to protect your metal structures

MANUFACTURING ENGINEERING

CLEANING AND CERTIFICATION OF PRESSURE VESSELS

- Cleaning capacities and wiper stations
- Equipment certification
- PUMPING, CLEANING AND DEGREASING CAPACITIES

BDB GLOBAL CORPORATION LDA is a subsidiary of the GCC Group.

AWith more than 500 employees worldwide, and especially on the African continent, the GCC Group is a major partner of local companies.
Since its creation in 2015, the Group now employs more than 500 people through its local subsidiaries..

HARDWARE | PIPE | WELDING | VERIFICATION AND CERTIFICATION OF PRESSURE UNITS | ENGINEERING

The GCC Group, Services for Industry, Maritime, On and Offshore in Congo and abroad.

OUR PARTNERS

B.D.B GLOBAL CORPORATION COMPANY LDA
ON AND OFFSHORE SERVICES / INDUSTRIAL MAINTENANCE

BDB GLOBAL CORPORATION LDA

Boilermaking
Piping
Metallurgy and steel construction
Cleaning and certification of capabilities
Cathodic protection and NDT inspection

IN THE PROJECTS

Cleaning and requalification of SCRUBBER DE KITINA_TAG 04360VN001

24" Manhole 600#RTJ

01 Bridle set 12"600#RTJ

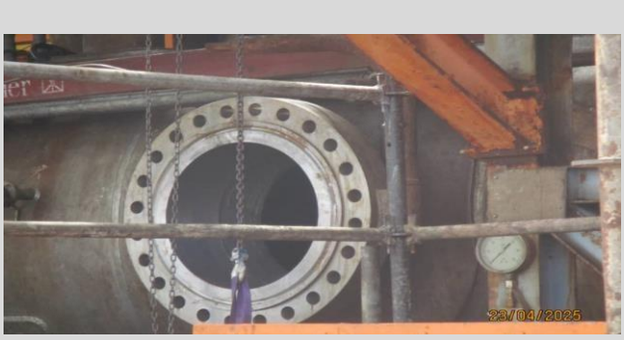

Opening of the 24" 600#RTJ manhole before cleaning can begin

IN THE PROJECTS

CATHODIC PROTECTION

Defect detection campaigns on tank piping

Site KUNDJI PF 200 SNPC

Installation of the anode bed

Check for absence of anode/steel

24'' seawater evaluation pipe

- By applying cutting-edge techniques, we protect the following equipment: steel, gas pipelines, water pipes and tanks, steel pillars, ships, oil rigs, reinforced concrete structures, etc..

LOCAL INVOLVEMENT

- Local content recruitment
- Welding school
- CAD, HSE, HR training...

Our cathodic protection work on the FOUTILA oil terminal in CABINDA

Objectives of the intervention:

✓ Comprehensive verification of the cathodic
✓ protection system Diagnosis of buried
✓ lines Inspection of junctions, cables and connections
✓ Measurement of potentials at various test
✓ points Inspection of the condition of electrical boxes and junction
✓ boxes Verification of earthing and anodes
✓ Anomaly detection and corrective recommendations

Metallurgy and steel construction

- DAO
- Diagnosis and study
- Execution of the Works
- Commissioning
- Maintenance and control
- Equipment Supply
- Torch welding
- TIG welding
- MMA welding
- MIG-MAG welding
- Plasma Welding

PIPELINE CONSTRUCTION WORK

- Projet SOCOFRAN CDE

OUR RESOURCES

A local facility, in the heart of the port of Pointe-Noire, with a surface area of 6,000 m².
- 1 open workshop of 5,000 m².
- 1 bunker dedicated to non-destructive testing
- 1 1,000 m² customer storage area

Adapted and renewed machinery:
- 4 overhead travelling cranes with a capacity of 30 t
- 2 gantry cranes with a capacity of 16 t
- 1 tower crane with a capacity of 5 t and a 50 m jib
- 1 plasma cutter on a 12 x 3 m table
- 1 automatic welding arm 5 x 4 m

WELDING CAPACITY

- 100 welders - 220 qualifications
- Carbon steel
- Stainless steel
- Duplex and super duplex
- Cupro nickel

HABILITATIONS / QUALIFICATIONS

- FCAW SS 114
- FCAW STT 135
- FCAW SG 136
- TIG
- SMAW
- SAW 121

OUR COMMITMENTS

Safety first and foremost

- Protecting the health and safety of our employees and subcontractors
- Examine and control the risks associated with our services on our worksites
- Ensure compliance with the laws and regulations applicable to all our activities
- Improve professional practices to make them even safer

Customer relations

- Listening to our customers and making suggestions
- Guaranteeing quality services with complete transparency

Our staff

- Developing skills and training every employee
- Promoting equal opportunities
- Promoting diversity

Respect for the environment

- Contributing and mobilising our best expertise to promote recycling and recovery solutions
- Controlling and reducing the environmental impact of our activities
- Offer full traceability of our operations

Quality control

- For many years, the GCC Group has pursued a proactive quality assurance policy, accompanied by a strong training policy and a policy of maintaining know-how (trades, schools, etc.).

The social link

- Acting every day to improve all the relationships that unite the men and women of the GCC Group

Compliance

- The GCC Group implements a Compliance policy applicable to all Group companies. GCC's commitments are detailed in an ethics charter and two internal procedures, one dealing with business ethics and the other with due diligence vis-à-vis our partners (suppliers, distributors, subcontractors, co-contractors, etc.).

- GCC employees are made aware of and trained in Compliance concepts and the rules and procedures to be implemented.

The GCC Group, Services for Industry, Maritime, On and Offshore supports you in 3 countries in Africa
